## **Oct 1st**

Departures

**Note that leading up to the meeting you will be provided with a series of articles and resources as pre-reading. The intent is that the period between 07:00 – 09:00 each day is spent reviewing the pre-reading material so as to be prepared for the evening workshop sessions.**

**This material will all relate to the topics for presentation during the workshops. The sessions are designed to be small group and interactive. So we are keen to encourage active participation from all our delegates. By completing the pre-reading you will be better able to come prepared to engage in the conversation. It is estimated that the pre-reading will require approximately 2 hours of review for each workshop**
