The Quiz

September 12th 2026

Farewells

PREPARATION SESSIONS

Note that leading up to the meeting you will be provided with a series of articles and resources as pre-reading for each workshop. The period between 07:00 – 09:00 each day will be spent initially reviewing the pre-reading and self-directed material after which individually or in small groups you will prepare a clinical case study relevant to the day's workshop theme. These case studies will form part of the evening workshop activity and you will be required to present.

The sessions are designed to be small group and interactive and will focus on key concepts. So we are keen to encourage active participation from all our delegates.

By completing the pre-reading and preparing your case studies you will be better able to come prepared to engage in the conversation. All sessions and workshops are mandatory.

A purple rectangular box containing the text "2026 Program" in a white, sans-serif font. The year "2026" is on the top line and the word "Program" is on the bottom line, both centered within the box.
